The **SafetyFirst**[®] behavior based safety (bbs) program took over a decade to be developed, tested and implemented across all global facilities at EnPro Industries. This is the only-proven bbs program that is supported by the 3X-Award Winning EnPro Safety System.

Our two day **SafetyFirst**[®] course will train you on how to implement and coach on EnPro's behavior based safety program at your workplace. The **SafetyFirst**[®] program has demonstrated remarkable success at reducing medical treatment injuries by over 80% and eliminating lost-time injuries within the first 24 months of implementation. Customers have reported employee engagement and participation increasing over 1000% for unsafe conditions and behaviors while experiencing 50% decreases in near misses.

SAFETYFIRST: BBS Course

The BBS course includes general behaviors, customizable triggers, and a unique program element on **Caring, Sharing and Learning**, teaching your team members how to give and receive feedback related to safety. By caring for one another, employees share and learn from each other.

Included with attendance is a leadership guide, employee workbook, Choose Safety DVD, Safety-First program DVD and lunch.

“This course trains you on how to focus on developing your “people” and how to incorporate different aspects of human behavior to help them understand the link between behavior and safety.

Course Agenda
